MINUTE ENTRY

The court has considered the supplemental information regarding complex designation that was requested. It appears premature to designate this case complex. The parties state that they may enter into a *Morris* agreement to resolve this litigation. If they do so, there is no need for complex designation. Additionally, the parties state that attempts at out-of-court resolution via mediation and informal discovery are ongoing. No substantive motions have been filed to date.

IT IS ORDERED denying the request for complex designation without prejudice. If the case is not resolved through a *Morris* agreement or otherwise, the parties may re-urge the motion and provide updated information.
