v.

LA FUENTE CONDOMINIUM ASSOCIATION      LYDIA P LINSMEIER

JUDGE MINDER

REGARDING DOCUMENT ENTITLED "IMPROPER SERVING . . ."

On November 12, 2024, Plaintiff filed a document entitled "Improper Serving of Judge Katherine Cooper's Judgment Dated Dec. 13, 2022." The document appears to claim fraud because an email chain, last dated December 16, 2022 attaches a judgment dated December 13, 2022. More to the point, Plaintiff appears to misinterpret the email chain to assert that the December judgment was sent in November, a temporal impossibility. But this Court's review of the email clarifies that the judgment was not sent in November. Rather it was sent in a December 16, 2022 reply to the November email. The judgment was, therefore, sent to Plaintiff after it was actually issued.

To the extent that Plaintiff complains about service, there is no specific requirement to separately serve filed documents when Plaintiff's attorney is receiving the same documents. The Court also notes that the emails contain attorney-client privileged information specifically advising about the propriety of filing an appeal.

This case terminated long ago. The Court will not re-open it for what appears to be a misunderstanding by Plaintiff.

SUPERIOR COURT OF ARIZONA  
MARICOPA COUNTY

CV 2022-006622

To the extent that Plaintiff is seeking any relief in his November 12, 2024 filing, the Court denies the relief due to lack of jurisdiction and on the merits as discussed above.
