v.

**RULING**

The Court has received Plaintiff's Motion to Enlarge Time and to Increase Page Limit for Plaintiff's Response to Defendant's Motion to Strike Portions of Plaintiff's Declaration.

IT IS ORDERED denying the motion.

The Court intends to strictly construe A.R.Civ.P. 7.1(f)(1). Any motions to strike or responses that exceed the two (2) pages limit that were filed without leave of the Court or as expressly authorized by statute or other rule will be struck on the Court's own motion. The volume of pleadings and the inability of counsel to collaborate to streamline the process regarding oral arguments on said pleadings requires the Court to stringently enforce these rules.
